What is the Community Benefits Program & how does it work?

The Piccones Community Benefits Program is a point based system. Each transaction generates points.

Customers can simply quote the organisations Community Number during their transaction to allocate their points to their chosen organisation!

The Piccones donate over \$200,000 per year towards nominated charities, schools, community groups & clubs. The more points generated, the higher the donation!

If you have any enquiries regarding the Community Benefits Program please contact Piccones Headoffice via email at headoffice@piccones.com.au

Due to State Law, tobacco product purchases cannot generate Community Benefits donations.
